

MACHINA MONSTRA

[Machina Monstra](#) is a project of production and marketing of toy art and other miniatures. Unique pieces, manually produced one by one.

The project was started in Volta Redonda, a city in the state of Rio de Janeiro (Brazil), and it is currently closed due to my absence from the city.

You can check out all the toys and read more about *Machina Monstra* on the web store or [Instagram profile](#).
